

MULTIFUNCTIONAL FILLER

Process

BIB unit is a semi-automatic filler completed of three filtration steps in series (2 – 1 – 0,65 micron)

A self-priming pump performs the automatic filling and then the operator changes the full container and starts on a new filling.

Applications

The system is suitable for:

- Bag in box (from 3 up to 20 L)
- Drum
- Kegs
- Demijohn

	BIB
Filling rate	20 L/min
Power	0.4 kW
Turbidity	< 10 NTU
Dimension	700x550x850 mm
Weight	50 Kg
